GREENWALD

1 IMPORTANT: For seamless installation, set-up room and machine profiles in Greenwald Management System (GMS) prior to device installation.

2 **Disconnect power to machine.**

Open console panel on machine.

Disconnect the two coin harnesses from the control board "COIN1" & "COIN2".

3 Plug in the connector from "coin 1" to the connector from the Greenwald Pay device with the blue cable. Plug in the connector from "coin 2" to the connector from the Greenwald Pay device with the red cable. *Note: Both cables must be plugged in.*

BLUE CABLE-COIN 1

RED CABLE-COIN 2
4 Plug in the serial communication connector on the Greenwald Pay device into the machine control board. "AA3" The Greenwald Pay device is now installed in-between the coin drop and the control board.
5 Leave console panel open and re-power the machine. After initialization, the Greenwald Pay device will slow blink white indicating device not configured and is ready to be paired with the profiles set up in GMS.

**6** **Configure Machines**

Login to the Greenwald Pay app using your admin credentials > Select "Setup".

*Note: Machine Profiles must be configured in GMS, before you can pair the machines.*
